				Letter to compaq computer rep advising of "We have designed and will be previewing on March 14th, an EMS (ambulance) electronic charting system on the windows CE platform, specifically using the ipaq 3650. Our system will require 2 handhelds on each ambulance that will connect through Ethernet to a hospital (destination) based PC. I am looking for contacts within your company to set up a business account and hopefully form strategic alliances. Any help or information you have would be greatly appreciated. Thank you very much for your time."
